# Spectre - Vehicles identification System by STid

SECURITY SALES & INTEGRATION - Newsletter Product showcase - March 2020

### [Spectre – Vehicules identification System by STid](#)

SPECTRE

The SPECTRE reader rewrites the rules of security, making it more instinctive. The identification performance offers reading convenience and reliability for smooth vehicle access. Up to 4 antennas can be connected to cover all security issues.

The SPECTRE is the most robust on the market, with an enhanced vandal-proof structure IK10 certified to withstand knocks and malicious acts. It is designed for outdoor installation in harsh environments. It combines dynamic and elegant design with the latest technologies for security and scalability.
